Title:

Comments: I am opposed to this project. This is sacred land for the Lakota people and we as a country and as individuals have put them through enough! We cannot continue letting corporate profit take precedence over people. Mining is detrimental to the environment and this project would disrupt traditional ceremonial practices of the Lakota. We are supposed to defend the religious rights of people in this country.

I am requesting a 60-day extension of the "scoping" public comment period, so everyone has an opportunity to comment and asking the Forest Service to require an Environmental Impact Statement (EIS) for this project.
