Comments: I need to express my heartfelt opposition to the Rochford Mineral Exploratory

Drilling Project #67838. I request a 60-day extension of the "scoping" public comment period, so everyone has an opportunity to comment and make their voice heard. The Lakota people and anyone within the United States deserve and should expect clean drinking water. There is much potential for negative environmental impact. Also, this is a very sacred site for the Lakota. The disruption of traditional ceremonial practices for Lakotas should never occur.

Please require the Forest Service to an Environmental Impact Statement (EIS) for this project.
