Comments: I oppose the Rochford Mineral Exploratory Drilling Project. This is an urgent request to protect sacred territory frequently used by many Lakota People for ceremonial practice. It is a pristine ecosystem and beautiful place. Please help us protect Pe' Sla. Exploration could contaminate water in the upper Rapid Creek watershed, with some proposed drill pads very close to streams. And there is also the potential for contamination or cross-contamination of underground water sources. At a minimum, the Forest Service needs to require an Environmental Impact Study for this project before continuing.
