Comments: Please reconsider any attempt to mine this sacred land. Honor the rights and freedoms for the first people in these United States who have suffered so much disrespect for generations. They seek to preserve this ancestral sacred land for future generations. It is the right thing to do and in the end will benefit us all. Every bit of land preserved in its natural state is precious. Stop taking advantage of the people's right to worship as they have for centuries. They have been and will continue to be the best stewards of this land.
