First name: Ashley

Last name: Fife

Organization:

Title:

Comments: I have lived and worked the White Mountain region for over 10 years. The National Forest Service has always been an organization I have trusted to do the right thing for the national forest around my home. But allowing this project among many other logging projects in sensitive environmental areas seems against what the NFS stands for. Especially in a time when our federal government would gladly exploit our precious environment for all it is worth, we have to protect our home from destruction at all costs.

I ask you not to go through with the proposal for the health and well-being of all those who live, work, and adventure in these woods. Thank you.
