Comments: I write my comments today in hope that the Forest Service takes corrective action to extend the comment period for 60 days so that the public has a chance to make their voices heard about a plan to allow mineral exploration on Sacred Land of the Lakota People. The Forest Service should do a complete EIS for this Project that will threaten habitat and streams as ALL MINERAL EXTRACTION does! Please protect this irreplaceable place from the greedy capitalists that would exploit every pristine place for profit. Thank you for allowing our comments on this vital piece of Public Lands.
