Comments: I am gravely concerned about the Rochford mineral exploratory drilling project. I feel this project could be detrimental and invasive to the sacred lands of the Lakota peoples specifically Pe'Sla. I strongly believe that an EIS is a must before the impacts of this project can be considered. The environmental impact of drilling in the area around Pe'Sla is way too dangerous to consider. I also implore you to extend the public comment period. I am also very concerned about the impact of this drilling project on the integrity of the Rapid Creek watershed.

Thank you.
