Re: 1950 (0110): Proposed Holland Lake Lodge Special Use Authorization Issuance

I have reviewed the comments submitted by Mr. Jim Morrison regarding this matter and incorporate them by reference in this message. Based on my knowledge of the matter and the facts he details in his letter, I urge you to deny the issuance or authorization of the "Proposed Holland Lake Lodge Special Use Authorization."

Also, I agree fully with all matters and actions set forth in his "Conclusion ". In particular, no action at all should occur until the detailed parade of horrible, which Mr. Morrison amply documents, are publicly addressed and corrected by the Forest Service. Frankly it is scandalous they were allowed to occur. Further, any proposed special use permit in future must be scrutinized at the highest level of environmental review by the Forest Service.
