Title:

Comments: Dear Forest Service,

Chip by chip we destroy wilderness. At the end of the day, Grand Targhee expansion mainly benefits one person. Of course his usual sycophants are on board to pick up the nickels and dimes that spill out of this massive monetization of the Tetons. Meanwhile, the quaint communities of Teton Valley will suffer loss of community as 'slam bam, thank you m'aam tourism with its attendant problems takes over. Just look at Jackson Hole.

Ask wildlife what they think of this proposal. People do not have to be here, wildlife do not have a choice.'

Respectfully,

Justin Adams, Kelly, WY
