First name: Megan

Last name: Vasich

Organization:

Title:

Comments: Please do not allow the disruption of this sacred place! Just as churches, mosques, synagogues, and temples are sacred to so many around the world, this too is a sacred place. This site's significance predates the existence of companies like Pete Lien and Sons and should be respected and left alone and intact. Sacred cultural sites should not be used for private industrial gains for so many reasons - culturally, ethically, and environmentally. This is wrong!
