First name: L.

Last name: Medeiros

Organization:

Title:

Comments: I am not Lakota. I am a human who is gravely concerned about the lack of consideration for the sacred lands of the Lakota. As Taylor Gunhammer said, drilling at Pe' Sla would be like doing so at the Vatican or a sacred site in Jerusalem. The land is not an endless cash cow designed to make money for men. The land is to be respected, protected. Please do not allow exploratory drilling at such an important place. Please have cultural respect. Your decision affects generations to come. Please do the right thing. Thank you.
