Comments: I am requesting a 60-day extension of the "scoping" public comment period for Rochford Mineral Exploratory Drilling Project #67838, so everyone has an opportunity to comment.

Personally, I oppose the Rochford Mineral Exploratory Drilling Project because of the potential negative environmental impacts, and the disruption of traditional ceremonial practices for Lakota people. This is sacred ground to them, and our federal government has already taken so much from them and other indigenous people, that now it's time for us later immigrants to give them some respect and deference, and take no more land from them.

Finally, the Forest Service should require an Environmental Impact Statement (EIS) for this project.
