Comments: This is a sacred site - in a way that your profit from drilling will never be sacred. After making all that money, you will die and the only thing you will have accomplished was extra padding you didn't need at the expense of other peoples' humanity. Please don't do this. You don't need this. Listen to the people who have call this place home and want to see it stay beautiful and home-worthy for their children, not to your own greed.
