Title:

Comments: I am signing this petition because it is essential to protect the sacred ground of the Lakota people out of respect for their cultural heritage, spiritual traditions, and sovereign rights. These lands are not just historical sites-they are living, sacred spaces that hold deep significance for the Lakota Nation and are integral to their identity and connection to their ancestors. Continued encroachment or destruction of these areas is a violation of Indigenous rights and an affront to justice and human dignity. Preserving these lands honors not only the Lakota people but also our collective responsibility to protect cultural and spiritual heritage for future generations.
