Comments: I am signing this petition because preserving the sacred lands of the Lakota people is a matter of cultural respect, spiritual integrity, and basic human rights. These places are not merely historical landmarks-they are sacred spaces that continue to hold profound meaning for the Lakota Nation and their connection to their ancestors. Allowing these lands to be disturbed or desecrated is a violation of Indigenous sovereignty and a disregard for their heritage. Protecting these sites is a crucial step toward honoring Indigenous traditions and ensuring they are respected for generations to come.
