First name: Angela

Last name: Hance

Organization:

Title:

Comments: As a nation, we have broken every possible treaty with the Indigenous Peoples of this land. Our ancestors murdered, killed with disease or just starved these Peoples across the land, from the Arctic Circle to Central America, from Hawaii and Alaska to Maine and Puerto Rico. To continue to ruin the sacred lands of these Peoples is cruel and unusual punishment, just for being on this land first. The audacity of it is astounding.
