First name: Macayla

Last name: Morrison

Organization:

Title:

Comments: We do not need more mining projects. We need to protect what natural land we have left, and respect the indigenous communities that came before us by protecting their sacred lands. Trump's "Drill Baby Drill" shows a blatant disregard not just to the planet, or the country, but to the millions of Americans who want to keep these places untouched. Do your actual job of protecting and stewarding the land by keeping Pete Lien and Sons out of Pe'sla!
