Title:

Comments: Dear Pete Lein and Sons,

I attended Black Hills State University, and my mom's side of the family all go way back in Western South Dakota. However, we have not lived there as long as the Indigenous Lakota people. Please honor their sacred land by stopping plans to drill Pe'sa. There are so many thousands of time that the wrong thing has been done to the Lakota People. Please do the right thing.

Sincerely,

Meg L
