Title:

Comments: I would like to request sixty day extension of the public comment period. I would also an environmental impact study completed by the forest service and land management with Game Fish and Parks. We have a rendezvous every year, recently we were asking not to use the site we are used to maintaining the site. We take a lot of pride in maintaining and making sure the site is better than we left it, our club is over 56 years old. To hear about mining in these beautiful locations is absolutely appalling. Please reconsider the destruction of this black hills areas.
