Comments: First, let me implore you to seriously consider the Comments submitted. They represent the views of many more people than those who take the time to write, as many people are experiencing combat fatigue in the battle to protect Mother Earth, and thus you will not be hearing from them.

Please AT LEAST conduct an EIS on this project that is sure to have an impact on the area. We all need to seek a balance between current and future "needs" and our responsibility to be accountable stewards of the land.
