First name: Jasmine

Last name: Baar

Organization:

Title:

Comments: We have taken so much from our indigenous communities in the United States. This is Lakota land. DO NOT MINE THE PE'SLA. I am in Michigan, my university classmates are talking about this, my neighbors and my roommates. I am in my senior year of college getting my degree in communications and public relations. I will not let the Lakota fight alone and I will use every privilege I have to stop this horrible company from ruining the earth, the United States are the communities that have been here long before us. Pete Lien and sons rochford, you will be brought to justice for your greed. DO NOT DRILL THE PE'SLA. Coming from a white person in America do not drill on native land. Stop polluting and destroying our earth. Go to Israel and drill for oil stop taking away from our indigenous people.
