Title:

Comments: This project would threaten the Rapid Creek Watershed and the underground water sources in the area. We need more protected natural areas. Stop with the overdevelopment and extractions!

Pe'sla is a sacred site. It even has federal Indian Trust status! Will this government not even honor its own federal statuses? This government hardly honours its own Constitution. I implore you to honor treaties, trusts, and the Constitution. This project harms not only the tribes whom this site is sacred to, it harms the non indigenous citizens of the US as well, and we won't stand for it. You harm our relatives, you harm the land, you harm us as well. Moving along with this project would be a threat and insult to us all.
