First name: tides

Last name: profeta

Organization:

Title:

Comments: please protect these lands which are sacred to the Lakota. please consider that not protecting these lands, here, now, -- it means other public lands are also at risk of mining or drilling, or any other project which will profit a few while degrading the land. Please put the earth & those who live here (humans & all other living beings) in your consideration before the profits of those who are already unethically hoarding so much wealth.
