Title:

Comments: Do not dig the ground at pe'sla! It goes against the treaties made in 1851 & the 1868 treaty with all of the oceti sakowin. You digging will only cause more damage to the earth & although it may not cause an impact today it will cause an impact for future generations. Our children & their childrens children will be the ones to suffer during their lifetime & you will be ones to blame for it! DO NOT DIG! Money is replaceable but the life of our earth & the life of our future children and grandchildren are not. DO NOT DIG!!!
