Comments:

I am a South Dakota resident with strong ties to the Black Hills and the Rochford area. I am very opposed to the Rochford Mineral Exploratory Drilling Project because it is a sacred, pristine wildlife area with one of the best trout fisheries in the state. Wild trout and terrestrial critters call this place home. Without a Forest Service Environmental Impact Statement for this project, it would be negligent allowing its continuation. Keep drilling out of our hills and away from our favorite places. Thank you.
