First name: Seth

Last name: Chamberlain

Organization:

Title:

Comments: It's obvious this a smash and grab to extract raw resources from a land that is SACRED to the natives of this land. It is not yours to destroy in the name of profit. This land belongs to natives and the very act of considering this project should be shameful to all involved. You are trading your souls and the souls of the ancestors who lived here for monetary gain. The greed necessary to commit such acts against nature and life is exorbitant. How insatiable is your greed that you must destroy this beautiful sacred land to only enrich yourselves more than you clearly already are? It's disgusting behavior and has absolutely no standing in polite society. Do not support this project.
