First name: Derrick

Last name: Kills The Enemy

Organization:

Title:

Comments: Pe sla is our sacred center and they want to drill it and sell it off. I don't approve and I sanction any peaceful protest in regards to such decisions. Also it's too close to land the Tribe is getting under protection. It can be seen as an attempt to disrupt prior land agreements for pe sla's federal protection. I myself am going to advocate on our treaty end to raise our taxes for any mining done withing treaty territory to making mining not ideal. Also with new discoveries of atom colliding, I don't see how mining will be necessary in the future. So why destroy our original home.

Pe Sla is our original home. The mountains around it have been used for centuries to navigate where the people relocate. I'm sure there other places to mine that won't cause mass activism in an immune response.
