Comments: Please respect all aspects of tribal treaty rights at all times. This mineral exploratory drilling project has environmental dangers and it impacts the sacred site Pe'Sla, this project is a violation of tribal treaty rights and an attack on Indigenous cultural values. Please keep in mind that Pe'Sla is an ancient holy site to which the Lakota people still return for ceremonial gatherings annually, as well as for individual spiritual purposes throughout the year. This site is irreplaceable to multiple tribes' religious practices.
