Title:

Comments: NO DRILLING OR MINING OF ANY KIND IN THE BLACK HILLS OF SOUTH DAKOTA. But especially anywhere near sacred sites and water resources. We are borrowing this land from our children and our grandchildren, and so on. Any amount of money made from these types of projects is not enough to be worth destroying the land. Our creator made this world for us and we are part of it. We are called to be its stewards; not it's destructors.
