Comments: The Black Hills are sacred. Pe' Sla is sacred. Drilling Pe' Sla will not only harm the Black Hills but the people in the surrounding areas. The Black Hills are a relative, they don't exist for profit. Please do not allow for this project to go through. It will cause much harm the community in more ways than one. Honor the treaty! Don't desecrate the Black Hills . 18 drill pads on the land? How can that be good for the earth? Have we not suffered enough? Has the land and water not been through enough?
