First name: Sarah

Last name: Manning

Organization:

Title:

Comments: The Black Hills and Pe'Sla are sacred to more than a dozen Tribal Nations. Drilling here would be a violation of ancestral, human and spiritual rights to the land that we all hold sacred. This drilling project does not represent the interests of countless generations of people, past and present, who gather strength from Pe'Sla and the Black Hills, and the Oglala Lakota Nation who to this day has treaty and ancestral rights to these lands.
