Comments: Greetings, I'm writing today to express my opposition on Lien & Sons' drilling project at Pe' Sla. This project is a threat to public health and the environment. The Forest Service has abandoned public trust for even considering it. This violates treaties, lacks and de-centers tribal consultation, and your website provided an incorrect number to the public for more information.

The lack of transparency, the exclusion of communities and an unjust comment period deprive this project of any sense of good ethics, justice, or public stewardship.
