Comments: To drill on sacred grounds of indigenous lands is disgraceful and disrespectful to the people of the tribe
As a native Indian with land rights to the Lakota tribe and inherited blood line ask for an extension or cease all together for drilling
And knowing the history of what has happened to my ancestors and our lands should already be out the question to stopand try to stick to traetys and stop attacking the tribes and lands
Now im assuming the company and people who choose to drill on these sacred lands
Are part of a blood line ancestry-that has already cause damage to the lands and native people
So please stop trying to control and take over the earth and let mother nature and the animals be
