Title:

Comments: I think Targhee has plenty of terrain now - expanding into South Bowl and Mono trees areas is not necessary. Existing terrain is not crowded at all. I would like to see the area improve existing facilities instead. A six place gondola to the top of Fred's MTN and a six place gondola which replaces the current Sacajawea lift and which goes to the top of Peaked mtn would be a better use of resources. Establishing a parking lot near the head of Teton canyon and running frequent buses to the area would do wonders for the parking mess .
