Comments: As a NW Wyoming skier, former JHMR lift/tram mechanic and now retired and skiing...I voice my protest in opposition to the Grand Targhee expansion beyond it's current boundaries. Having lived in NW WY for 50 years and watching the seemingly endless human growth I see nothing sustainable as we ignore our obvious and irreversible Earth impacts. Earth is a biosphere made up of countless ecosystems that only remain healthy when they are in balance. The evolution of humans into today's industrialized civilization pursues more imbalance for our biosphere than any species has ever imposed. Deny Targhee's expansion beyond it's current boundaries.
