Title:

Comments: Strongly Oppose the expansion beyond its present parameters. The community infrastructure cannot support the expansion. We have one traffic light in the town which over the last 2 -3 years has become the point of predicted commute traffic jams. Most importantly the impact on the wildlife will be terrible. I've had a home off ski hill rd for more than 20years, the number of wildlife struck by traffic has increased including moose. Sad to see how the valley has changed. Keep the view of the Tetons pristine, please no mountain top restaurant.
