Comments: Based on the DEIS report, expanding the resort beyond its current boundary would have detrimental effects on the wildlife, the environment, and our community. I support Alternative 3. Leave Targhee inbounds, without the restaurant on Fred's Mountain. The mountain-top restaurant would be visible on the mountain line. The boundaries of the resort being expanded in Alternatives 2, 4, and 5 all violate conservation efforts and priorities in the Greater Yellowstone Ecosystem. Vote Alternative 3. Grand Targhee is privileged to have access to one of the most pristine and scenic locations in the lower 48. The current boundaries of the ski area are more than adequate for the attendees of the mountain, and further expansion would do irreparable damage to the scenic beauty and flourishing ecosystem in and around the Greater Yellowstone Ecosystem.
