Comments: I have been a resident a Teton Valley, Idaho since 1989 and before that a resident of Teton County , Wyoming for 11 years. I am deepy concerned about the proposed expansion and as such I only support either NO EXPANSION at all or only into the present day boundaries. I see no benefit to Teton Valley, Idaho as we will receive no revenue from this expansion and only a heavier tax burden due to the impact on out infrastructure which is already stretched to the limit. The increased traffic will damage our roads and take a toll on the wildlife.

Teton Canyon is a sacred place, as beautiful as any of the canyons in Teton Park and is already being over run by our fast growing population. I have seen as many as 7 moose hanging out on the south facing ridge in Teton Canyon on a winters day and feel that allowing more skiers through the south boundary will negatively impact all the wildlife that move through the canyon.

Targhee's base area is already larger than the Jackson Hole Ski Resort which has more skiable acreage.

Targhee has always been a special place: endless powder, family friendly, locally supported, beautiful terrain... don't ruin it by making it only for the rich and famous like JHOLE.

Please take into consideration the impact such an huge expansion will have on Teton Valley, Idaho.
