Comments: We support Option 1, the No Action Alternative.

We own property on Butler Lane in Driggs, ID just off of Idaho Hwy 33. I anticipate that if Targhee develops under any of the other Options, the traffic (particularly on Hwy 33) will continue to increase. It is not unreasonable to foresee additional road construction and traffic management. This will only increase traffic delays, stormwater runoff from streets and automotive emissions. I don't want to see these adverse impacts to the community and I believe that other Teton County residents feel the same way.
