Title:

Comments: I write you today to state my very strong opposition to the expansion of Grand Targhee's operational boundaries. I oppose expanding their operations into South Bowl and Mono Trees. I also oppose the siting of a summit building that can be seen from Grand Teton National Park or that sits above the silhouette of the mountain to be seen from Teton Valley or the western rim of Teton Valley. Targhee is not big enough to warrant a lodge high on the mountain and will impact the view of the Tetons. Grand Targhee can develop the base and create more runs with its existing lease area.

Thank you for the chance to contribute to your decision making process, lengthy comment period and a good list of alternatives to work with. I appreciate your hard work.

Please do not expand the lease area for Grand Targhee. There is not a public need and the impacts to the Tetons, the Wilderness and the National Park is not worth the trouble.

Respectfully, Georgie Stanley
