Comments: I am not in support of building restaurants at the top of Targhee nor do I think there should be lifts into Teton canyon. I've lived in resort towns that have too much development on or near the ridge lines. Installing any structure other than a lift

Tower will negatively impact the views for everyone in the valley.

There are already winter closures for winter wildlife migrations in Teton canyon. Allowing a lift would disrupt wildlife and those who choose to recreate within Teton canyon.
