Comments: I currently own property in Packsaddle Estates and my family grew up wintering in Teton Valley as well as skiing regularly @ Targhee. My late husband was on volunteer ski patrol for several years. The remainder of my family would like to see Targhee remain the pristine area we cherish and would like future generations to enjoy the same. It is our desire to maintain these wild areas for as long as possible for the benefit of its wildlife and its own unique natural beauty. We object to any expansion of Targhee Ski Resort due to the negative impact more development will bring to this majestic landscape and surrounding areas. Thank you!
