First name: Sarah

Last name: Ashworth

Organization:

Title:

Comments: 1) There is absolutely NO need for the expansion of the Targhee facilities. Wildlife's living patterns and migration corridors are interrupted and intruded upon enough as it is.

2) There is nothing architecturally than can be built or added that will improve the appearance and natural gifts of the area.

3) Teton Valley doesn't need one more thing to enhance further escalating of prices....especially in downhill skiing. "World class" means more money for the owner of Targhee and less opportunity and affordability for local full-time residents who are the mainstay and central fiber of Teton Valley's love of land, rivers, wildlife and unobtrusive lifestyle which just wants peace on earth....move slow...breathe deep and relish its wonderful vibe. Developers need to move out and move on!

NO NEED FOR TARGHEE EXPANSION!!
