Comments: I am writing in objection to Grand Targhee expansion. I have skied at Targhee for more than 45 years and love this place, but I have concerns about the impacts to Teton Valley, ID. The growth resulting from development will impact all of the Teton Valley's services and infrastructure, and we are not prepared for this. With all tax revenue benefiting the state of Wyoming, how will little old Teton County be able to deal with this impact? The answer is simple: we can't, and there are no future financial resources that are going to change this. Please deny the Targhee expansion plan.
