Comments: I believe alternative 3 is best suited for Grand Targhee. I have used Teton Canyon in all seasons for the last 50 years. I believe Targhee expansion into Teton Canyon would negatively effect the already existing year round activities, water and wildlife management and the ecology. Teton Canyon is one of the greatest natural areas in Teton Valley (Idaho & Wyoming). It is an amazing resource for entering Tetons from the west and the planned development there would ruin the magic of the place. Targhee has ample room for growth inside the existing boundaries.

Thank you!
