Title:

Comments: Little by little, and then its too much. I am opposed to the Targhee Expansion Plans. Please do not destroy what is left of our wildness. (not wilderness). I was working in my yard, and for three hours today there was no break in the traffic on 33. We are already over burdened with everyone wanting to make a piece of pie out of this valley. It will soon lose its appeal, and then what? I have lived in Alta, Victor and now Tetonia, and am not against progress- but for whom? All these plans for growth do not consider the existing residents, and therefore should not be approved.
