Comments: I am against the expansion of Grand Targhee. I don't think the resort needs 3 new lifts along with all the new trails. The beauty of Targhee is its size allowing for a great family atmosphere. I think it would be awful if Targhee turned into another Jackson Hole with the huge size and crowds. Additionally, I don't know how everyone would get up the mountain. Ski Hill road is one lane. Parking would be another issue with the only option being to destroy more of the environment to pave a parking lot. A larger resort would also mean more employees. Where are these employees going to live? There is not much affordability in Driggs or Victor. Recently, there was an article in the Wall Street Journal about Driggs becoming the next Jackson Hole. No way. Don't let Driggs expand in that fashion!! I am against the new plans to expand Grand Targhee.
