Comments: After reviewing the DEIS report, I believe expanding Grand Targhee Resort beyond its current boundaries would seriously harm wildlife, the environment, and the local community. I'm in favor of Alternative 3, which keeps the resort within its existing footprint and does not include building a restaurant on Fred's Mountain - that structure would ruin the natural beauty of the area. The proposed expansions in Alternatives 2, 4, and 5 go against the conservation goals of the Greater Yellowstone Ecosystem. I live in Driggs and my family and I often enjoy the wild lands surrounding the resort. Turning that public space into private development would be a major loss for both us and our neighbors. Please keep Targhee within its current boundaries
