Comments: I'm writing to oppose any expansion of Grand Targhee Resort beyond its current boundaries. The impacts to the wildlife and natural resources of this proposed expansion are completely unacceptable. The impact to Teton Valley's infrastructure would be devastating. The ski area has more ski-able acreage than nearby Jackson Hole Mountain Resort with less than half as many skier-days. This proposed expansion is not necessary for them to grow their business and the costs and impacts to our valley are too great.
