Comments: Ever heard of "Growth equals Death"?

It's about time we use our amazing brains and go above the developer politics and a few people getting rich at the cost of the quality of life of those of us that live in Driggs and get dumped on by the cost of traffic, roads, schools, healthcare and more. Do we need to close Sky Hill Road to save our town and valley? Stop this insanity of making a few people rich and benefit a small group of people not even living here.
